DIRECTIONS

Print Pages: 4-7

These 100 and 120 charts are great for your math activities! I always have these handy as master copies and they are in my students' math binders (in page protectors) for easy access. They can be used for so many things!

Print Settings: Select "Fit" so the content will adjust to fit on your page. All printers are different, so you may need to test a few different settings.

The following page outlines the different pages included in this pack.
